Academy Re-Opening Plan

Cape Fear Christian Academy formed a COVID-19 planning committee in early June to ensure operational flexibility and the prioritization of the health and safety of our students, families, faculty, and staff.

The Academy has actively prepared for on-campus instruction and taken a number of risk mitigation measures; however, we recognize and fully understand that there may be health safety concerns for some families. For those families we offer the option of remote-instruction.

Student Instruction Plan

Cape Fear Christian Academy's Academic Affairs Committee and the COVID-19 Committee have worked diligently to ensure that families at the Academy have equitable on-campus instruction and remote instruction options for students.

On-Campus Instruction

Zones & cohorts reduce exposure while still allowing for socialization

Face coverings indoors, when outside of classrooms or cohort to reduce exposure

Promoting distancing while unmasked and outdoors

Bring water bottle to refill as fountains will function to refill only

Bring snack & lunch as cohorts will fellowship together to eat

Increased time outdoors will create additional spaces for learning and playing

Remote Instruction

Our faculty online

Accommodates families with health and safety concerns

Allowing symptomatic and exposed students to remain home

Receiving live and recorded instruction from familiar faces

Utilizing Google Classroom and various integrations

While remaining in frequent contact with faculty for feedback

Health & Safety Protocols & Procedures

Cape Fear Christian Academy COVID-19 Committee has set forth specific protocols for the health and safety of our families.

Before Arrival on Campus

Complete the Symptom Check Survey. If your child is experiencing these symptoms, it is safest for them to stay home and protect others from potentially becoming infected.

Fever or chills	Loss of taste or smell
Cough	Headaches
Shortness of breath	Sore Throat
Fatigue	Nausea or Vomiting
Muscle or body aches	Diarrhea

When in Doubt; Stay Out!

Arrival on Campus

Before & After School Care will not be offered at this time. No arrivals before 7:15am.

Parent drivers must remain on campus in their vehicle until their student(s) has cleared the screening.

Start times:
K4-4th 7:40
5th-12th 8:15

Wear face covering until in classroom seated

Step into tent
Scan for fever
≥ 100.4°F

Symptom check app verification

Get daily color-coded armband for zone

Sanitize hands before entering the building

Mandatory fever screenings and health screening surveys will occur daily for every faculty member, student, and campus visitor upon arrival. Each color-coded grade-level tent will be fully staffed to assist students in getting to class in a timely manner. Student Drivers with K4 - 4th grade passengers MUST utilize the academic circle to drop off their passenger at the designated tent prior to parking in the STUDENT PARKING LOT. Late drop offs will park in spots labeled 1-5 in the academic circle drive and will call the office for check in.

Sanitation Plan

The Cape Fear Christian Academy COVID-19 Committee has developed a robust cleaning and sanitation plan that provides for additional disinfecting activities on campus daily.

Changes on Campus

Hand sanitation stations located throughout campus and at entryways

Multiple times a day cleaning of desks, doors, light switches, bathrooms, and other frequently touched surfaces

Face coverings worn indoors when outside of classroom or by teacher request

New Daily Professional Services from Jan-Pro

Every evening sanitation of bathrooms,

hallways, and frequently touched surfaces

with specific disinfecting protocols for COVID-19 exposed areas

Illness Response

Any individual who is symptomatic or who tests positive for COVID-19 must immediately report that information to the Office and remain off campus until cleared to return by the Head of School.

The Academy is taking steps to mitigate the risks of the transmission of COVID-19 but the risks associated with the virus cannot be fully eliminated.

What does this mean for my cohort?

Direct Exposure necessitates Remote Learning

Cohorts are used to reduce exposure risks; however, exposure may still occur and when it does, parents will be promptly notified of any suspension of on-campus instruction for impacted students. Students from an impacted cohort will participate in Remote Learning for at least 14 days after direct exposure and will be notified when classes will resume on campus.

Siblings of impacting students will also need to participate in Remote Learning during this time.

Decisions to suspend On-Campus Instruction will not be made lightly and will be made on a case-by case basis with the safety of our students, families, faculty, and staff at the forefront of our decisions.
